

**Position Statement: Commissioning Gaps  
14 March 2018**

Derby & Derbyshire LMC have had a number of queries from practices regarding the provision of services that are no longer commissioned and/or not appropriately commissioned e.g. dopplers, leg ulcer care, drug misuse services for those addicted to prescription medication and post-operative care.

We are fully aware that there are a number of commissioning gaps in Derbyshire and have discussed this issue with the CCGs. A meeting to discuss how to action these gaps has unfortunately been deferred because of NHSE pressures on the CCG. We are waiting to hear when this will be rearranged.

In the meantime if there are any services you are continuing to provide but that sit outside your contract AND agreed enhanced services, please let us know and we will add them to the list. In addition if you have given notice to the CCGs on stopping any of these services please also inform us.

**Dr Susie Bayley  
Head of Communications  
Derby and Derbyshire Local Medical Committee**
