

EXPERIENCED GP (6 - 8 SESSIONS)

Ashbourne & Brailsford | Gateway to the Peak District

Are you an experienced, confident General Practitioner looking for a role where you can focus on high-quality clinical care within an organised, supportive framework?

Henmore Health is seeking an autonomous clinician to join our medical team, working across our two well-established sites at Ashbourne Surgery and Brailsford Surgery. This position is ideally suited to a self-sufficient, established GP who is fully comfortable with independent practice, ready to hit the ground running from day one without requiring transitional hand-holding or clinical preceptorship.

At Henmore Health, our core philosophy is teamwork, teamwork, teamwork. While we value high clinical autonomy and independent decision-making, you will never practise in isolation. We pride ourselves on a culture of shared responsibility, peer trust and mutual respect, where every member of our team works collectively to ensure a smooth, efficient and rewarding working day. In return, we offer a competitive and rewarding package that reflects your experience and capabilities.

Main duties of the job

Working within a highly collaborative multidisciplinary team, you will be supported by a robust operational, governance and administrative infrastructure designed to absorb non-clinical burdens, allowing you to focus on safe, effective patient care.

- **Autonomous Clinical Care:** Delivering routine and on-the-day GP appointments and managing complex multi-morbidity caseloads independently.
- **Team Collaboration:** Working closely and collaboratively with our wider clinical team, including GP Registrars, ANPs, practice nurses, clinical pharmacists and administrative staff.
- **Shared Decision-Making:** Participating actively in regular clinical meetings, peer support frameworks and collective clinical problem-solving.
- **Cross-Site Practice:** Working fluidly across our two sites, with consistent processes across both locations.
- **Quality & Service Improvement:** Contributing your insight to practice-wide service improvements and quality initiatives where you have a keen interest.

Overview of your organisation

Henmore Health is the largest Primary Care Provider in the South Dales, delivering services across Ashbourne and Brailsford. We are a values-led organisation with a strong executive structure, clear governance and a commitment to modern general practice, education, sustainability and quality.

The Derbyshire Dales offers an outstanding quality of life with immediate access to national park landscapes, outdoor pursuits, excellent schools and strong community identity, all within reach of Derby, Nottingham and Stoke.

Why join Henmore?

- We comprise two well-established practices with strong admin and operational support
- Clear governance and leadership structures
- Realistic workload approach
- Supportive culture with autonomy and trust
- Opportunities to develop interests without pressure
