

Vacancy for General Practitioner in Friendly, Supportive Semi-rural Practice

Eight clinical sessions per week – FTC – 9 months maternity cover (Fixed days Tuesday, Wednesday – Flexible Days Monday, Thursday, Friday)

Job summary

An exciting opportunity has arisen within Riversdale Surgery for a motivated and enthusiastic GP to join our positive, friendly, and supportive team at Riversdale Surgery for 8 sessions per week on a 9-month maternity contract to be part of and enhance our team.

We are a semi-rural vibrant practice based in the heart of the market town of Belper, gateway to the Peak District, serving 13,500 patients. We have brought together a high performing multi-disciplinary team including five GP Partners, six Salaried GP's, a nurse team of eight, two frailty ACP's, Clinical Pharmacists, Care Co-ordinator, Mental health workers, FCP service, PCN Home visiting team and a fantastic support team. We play a full part in a very proactive PCN with three other local practices. After working together for many years, we have a positive and supportive approach to the challenges working in Primary Care presents.

Main duties of the role

The position will focus on delivering primary care services to our patients; involving Face to face and telephone consultations and online consults. Limited home visits; as a result of our brilliant Frailty ACPs and PCN Home visiting service. From seeing patients to clinical reports, you would be doing everything that the partners and other salaried GPs do, including being involved with training registrars and nurses.

Overview of organisation

Riversdale Surgery is a friendly, very patient centred practice. We have a strong team ethos and have built a supportive environment for all our clinicians. All clinicians meet daily over coffee for a daily informal team debrief and a wind down after morning surgery. We offer the NHS Pension scheme and on-site parking. We have a dynamic and forward-thinking clinical administration and reception team, which reduces the clinical administration burden on clinicians. A strong, experienced nursing team and our PCN staff, whilst working across the whole PCN are an invaluable resource. We work hard to balance workload fairly across

the team and keep the workload sustainable and rewarding. We use Systmone, AccuRx and Ardens and actively look to maximise digital tools to improve the way in which we work. We are a training practice and have close links with Nottingham University Medical, school training medical students and have training status for GP Registrars giving opportunity to get involved with debriefs and supervision of registrars and medical students.

Informal visits are encouraged and welcomed by the practice. Please contact Kay Smith to arrange a visit on 01773 822386 or kay.smith13@nhs.net

Person Specification

Qualifications, skills and experience

Essential

- Medical degree
- Current GMC Registration
- Inclusion on the GP register
